CERTIFICATE OF AUDIT

This is to certify that I have audited the books and accounts of the City of Nashua, New Hampshire, for the fiscal year ending December 31, 1946.

The report submitted herewith sets forth in my opinion the financial condition of the City as of December 31, 1946. The various Exhibits and Schedules, together with my comments, reflect the results of operation for the year ended on that date.

Respectfully submitted,

CLARENCE H. WRIGHT,

Certified Public Accountant.

May 14, 1947.

To His Honor the Mayor and the Honorable Board of Aldermen, City of Nashua, New Hampshire:

GENTLEMEN:

In accordance with authority granted by you, I have audited the books and accounts of the City of Nashua for the fiscal year ended December 31, 1946. I submit my report thereof with appropriate comment, exhibits and schedules.

Comparative Balance Sheets show the financial condition on December 31, 1946 compared with December 31, 1945. Items shown therein were verified and found as stated. Uncollected taxes were given careful attention and verified by sending out notices on April 10 to the taxpayers owing property taxes for the year 1946. These notices were prepared by the Tax Collector clerical staff but checked and mailed under my supervision. At the date of this report no errors have been found.

The assets of the various Trust Funds were checked by verifying the actual securities in the various safety deposit boxes in which they are kept. Changes in investments during the year were carefully checked and no unauthorized expenditures were found.

I examined the Surety Bonds of the Tax Collector, City Treasurer, City Clerk, Cashiers and Clerks, and found them in order.

Insurance policies on file were examined and found as follows:

Policies expiring January 2, 1948	\$845,834.00
Policies expiring January 2, 1949	845,834.00
Policies expiring January 2, 1950	845,834.00

\$2,537,502.00

During the year 1946 the assets of the Sinking Fund were disposed of and the proceeds applied against debt maturing in 1946. See Schedule A-14. There were through bond issues during the year

Public Improvement	\$75,000.00
Sewer Construction	20,000.00
Departmental Equipment	40,000.00

\$135,000.00

Debt maturing during the year amounted to \$116,000.00, making a net increase of \$19,000.00 in the debt outstanding.

The City Officials and their staffs seemed anxious to assist me in making the audit and I wish to express my appreciation of their cooperation.

Respectfully submitted,

CLARENCE H. WRIGHT,

Certified Public Accountant.

ORDINANCES

PASSED BY THE BOARD OF ALDERMEN

1946

CITY OF NASHUA

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED AND
FORTY-SIX

AN ORDINANCE

CREATING THE NASHUA AVIATION COMMISSION

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That the Ordinance entitled, "Creating an Airport Commission" passed and approved on January 11, 1938, is hereby repealed.

Be IT FURTHER ORDAINED, By the Board of Aldermen of the City of Nashua:

That the Mayor be and is hereby authorized to appoint, subject to the approval of the Board of Aldermen, a Commission to be known as the Nashua Aviation Commission.

The said Commission shall consist of six members. The first commissioner shall be appointed initially for six years, the second for five, the third for four years, the fourth for three years, the fifth for two years, and the sixth for one year, and thereafter as their terms expire, each shall be appointed for six years. Each shall hold office until his successor shall be appointed and qualified. Vacancies shall be filled for the unexpired term. All the Commissioners shall serve without salary.

A majority of the members shall constitute a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power.

The Commission is hereby authorized in the name of the City to have general supervision over all flying activities in the City, and for that purpose, to engage in any aeronautical activity essential to the progress of aeronautics in the City of Nashua, including the purchase and sale of land, equipment, and supplies, necessary for or incidental to any of its functions, the furnishing of services and accommodations in connection with maintenance of airports or airport services; it may engage in such activities jointly with the United States, the State, and with political subdivisions or other agencies of the State. The Commission is empowered to perform

such acts, to conduct such investigations, to issue and amend such orders, and to make and amend such rules, regulations, and procedure pursuant to and not inconsistent with the provisions of this ordinance, and the then current Federal and State Legislation governing aeronautics, and the regulations duly promulgated thereunder, as it shall deem necessary to carry out such provisions and to exercise and perform its powers and duties under this ordinance.

The Commission shall designate one of its members to be Director of Aeronautics. He shall serve for an indefinite term, at the pleasure of the Commission. Said Director shall be appointed with due regard to his fitness, by aeronautical education, by knowledge of and experience in aeronautics, for the official despatch of the powers and duties vested in and imposed upon him by this act. The Director shall serve without compensation, but may be reimbursed for actual expenses incurred by him in the discharge of his official duties.

The Director shall be the executive officer of the Commission, and under the supervision of the Commission, shall administer the supervisions of this ordinance.

The said Commission shall organize annually in the month of January by the choice of one of its members as chairman. It shall also elect a Clerk and any other necessary officers to serve for one year, or until their successors are chosen.

The said Commission shall, at the close of every year, make a detailed report to the Board of Aldermen of its activities for that year, which report shall be published with the report of the other municipal departments.

Passed January 22, 1946

LESTER H. BURNHAM,
President.

Approved January 23, 1946

OSWALD S. MAYNARD,
Mayor.

AN ORDINANCE
REGULATION OF PARKING METER RESTRICTIONS FOR
PARKING METERS

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

DEFINITIONS—For the purpose of this section:

(a) "Vehicle" shall mean any device in, upon or by which any person or property is or may be transported upon a highway.

(b) "Restricted Street" shall mean that part of any public street, avenue, road, boulevard, highway, or other public place established for the use of vehicles within the city and restricting parking to a limited period only.

(c) "Parking" shall mean the stopping of a vehicle upon a restricted street otherwise than in obedience to traffic regulations or traffic signs or signals for a period longer than reasonably necessary to load or unload passengers or freight.

(d) "Parking Meter" shall mean that mechanism having a visible time indicator, a coin receiving and a coin actuating mechanism all enclosed and mounted on top of a post which shall, under no conditions, be higher than 4½ feet over all and at no point shall the post or mechanism thereon be over 8 inches wide. Each parking meter installed shall indicate by proper legend the legal parking time established by the city, and when operating shall at all times indicate the balance of the period of legal parking, and at the expiration of such period, shall indicate illegal or overtime parking.

(e) "Parking Meter Zone" shall mean any restricted street upon which parking meters are installed and in operation.

PURPOSE—To assure to the general public a free use of the city's streets by regulating and enforcing the privilege of parking and thereby hastening the departure of parked vehicles on restricted streets and to aid the police in enforcing regulations governing the parking of vehicles.

PARKING METER ZONES—Parking meters shall be installed, operated, maintained, policed and supervised on the restricted streets at such places and in such manner as the city manager (or whatever the case may be) shall direct and such parking meters shall be so devised and regulated as to provide for parking periods not in excess of the legal time limit within the restricted streets.

INSTALLATION OF PARKING METERS—In every parking meter zone one parking meter shall be installed within the curb line adjacent to each space conspicuously designated by lines painted on the surface of the curb or street as a parking place for one vehicle. It shall be a violation of the provisions of this ordinance to park any vehicle of a lesser over all length than the designated area in such a position that the same shall not be completely within the space provided for one vehicle. Suitable signs indicating the parking restrictions and regulations applicable in parking meter zones shall be conspicuously posted.

OPERATIONS OF PARKING METERS—Parking a vehicle within any parking meter zone for beyond the established legal parking time for said zone is unlawful. Parking a vehicle within a parking zone for a period of not longer than the established time limit shall be permitted only upon the payment of a coin or coins of the United States as designated on the parking meter which shall, in no event, exceed 5c and which payment shall be made by depositing such coin or coins in the parking meter adjacent to the space occupied by such vehicle and by setting the time device upon such parking meter in operation. The coin or coins required to be deposited in parking meters as provided thereon are hereby levied and assessed as fees for the sole purpose of providing for the cost of proper supervision and regulation of parking vehicles in the parking meter zones, and to cover the cost of purchase, supervision, pro-

tection, inspection, installation, operation, maintenance, control and use of the parking meters described herein. It is further provided that said installation of parking meters shall in no manner obligate the city to pay for the same from any source other than that herein-before set out.

PRESUMPTIONS—The fact that the time device on any parking meter is not in operation shall be presumptive evidence that the person who parked the vehicle then found standing in the parking space adjacent to such meter failed to deposit a coin or coins as required therein; and the indication by such meter of illegal parking shall be presumptive evidence of overtime parking.

Any overtime parking violation under this ordinance shall raise the presumption that the vehicle involved was operated by the person in whose name such vehicle is registered.

MAINTENANCE AND CONTROL OF PARKING METERS—The fee required to be deposited in said meters is hereby levied as a police regulation and inspection fee to cover the cost of providing parking spaces, parking meters, and installation and maintenance thereof, the cost of regulation and inspection, operation, control, and use of the parking meter spaces and zones created herein, for the regulation and control of traffic moving in and out of, and parking in, said parking spaces and zones so created, and for the cost of any resultant traffic administration expense. Any surplus remaining after payment of the expense of said meters shall be paid into the treasury of the City of Nashua. To be used for regulation of traffic. It shall be the duty of the Police Department of the City of Nashua to supervise, control, and maintain said meters in workable condition. It shall be the further duty of the traffic officers so instructed to take the parking meter number and the state vehicle tag number of all persons violating the provision of this ordinance and make complaint therefor in the Municipal Court of the City of Nashua, or make return thereof to the Chief of Police.

PENALTIES—It shall be unlawful and a violation of the provisions of this Ordinance:

(a) For any person to deposit in a parking meter a coin or coins for the purpose of increasing or extending the parking meter time of any vehicle beyond the legal parking time limit:

(b) For any person to allow a vehicle operated by him to be parked overtime or beyond the period of legal parking time established for any parking meter zone.

(c) To deposit or cause to be deposited in any parking meter any slug device, or metallic substitute for a coin or coins of the United States:

(d) For any person to deface, injure, tamper with, open or willfully break, destroy, or impair the usefulness of any parking meter installed under the provisions of this ordinance.

Every person who violates sub-sections C, or D of the section entitled "Penalties" of this ordinance, shall be punished by a fine not exceeding Fifty (\$50.00) Dollars or imprisonment not exceeding thirty (30) days, or by both such fine and imprisonment.

Any person violating sub-section A or B of the section entitled "Penalties" of this ordinance, or any person who allows said section to be violated, shall, for the first offense in any calendar year, be fined One Dollar (\$1.00); for the second offense in any calendar year shall be fined Two Dollars (\$2.00) and for the third offense in any calendar year, shall be fined not more than Twenty (\$20.00) Dollars upon conviction in the Municipal Court. Said fines of One Dollar and Two Dollars may be paid to the Police Department of the City of Nashua. Nothing in this section shall prevent any person from being heard in Court in lieu of payment to the Police Department provided herein for the first two offenses in one calendar year. The Chief of Police shall account monthly to the City Treasurer for all moneys collected under this section, such monies to be earmarked for regulation of Traffic.

EXCEPTIONS—This ordinance shall not apply to the Police Department and the Fire Department of the City of Nashua. The Chief of Police upon due cause shown, may permit the use of the restricted area free from any cost to the user.

REPEAL—This ordinance shall be deemed to be in addition and supplementary to prior and existing ordinances of this city. If, however, prior ordinances conflict with the provisions and contemplations of this ordinance, they are hereby repealed.

INVALIDITY—In any section, part of a section, sentence, clause or phrase of this ordinance shall be held to be unconstitutional or invalid, the remaining provisions hereof shall, nevertheless, remain in full force and effect.

Annual Report of the Board of Fire Commissioners

To the Honorable Mayor and Board of Aldermen:

GENTLEMEN:

The Board of Fire Commissioners herewith submits its Annual Report for the year of 1946.

The Board met on January 1st, 1946 and organized by electing S. St. Laurent, Chairman; V. Cote, Purchasing Agent; E. A. Whitney, Clerk.

FIRE PREVENTION BUREAU

Fire Prevention Week, October 5th through the 12th was observed in an unusual manner during this year. An entirely new method was established in inspecting the cellars of private dwellings which was the first time that this has ever been done in this City. During the three weeks which were used to do this work there were 1970 inspections made. The property owners and occupants were very cooperative in this observance and helped to make it the success that it was. Also during the year there were 1121 inspections of mercantile establishments. The merchants and property owners of these establishments were also very cooperative.

FIRE APPARATUS

The last part of the year a new Aerial Ladder was delivered which had been purchased for over a year. A 1000 gallon pumper and a 750 gallon pumper were purchased during the year with delivery expected during the summer of next year.

FIRE ALARM SYSTEM

During the year 45 new Fire Alarm boxes were purchased and replaced all the old type boxes that were in service. This improves the system so that it is very dependable now as it makes it non-interfering type because two boxes can be pulled together but only one will transmit at a time and then the other will follow immediately. This will avert the jumbled code coming in and which would not give the proper location of the box transmitting. A two-way radio system was also purchased and of which part has arrived and been installed. Delivery of the rest of the parts are expected early during the coming year when it will be completely installed in service.

NEW EQUIPMENT ADDED

There were a number of pieces of new equipment added to the Department during the year such as 2 Fresh Air Masks, 2 Oxygen Masks, a Resuscitator, cellar pipes, nozzles of various types, Salvage Covers, and acetylene cutting torch, and miscellaneous items which will help to bring the Department to a higher standard.

In conclusion we wish to take this time to extend to the Mayor, the Board of Aldermen, the Board of Public Works, the Board of Police Commissioners and the Members of the Police Department, the many workers of the Red Cross, the Employees of the Telephone, Public Service and Gas Companies, the Captains of the Salvation Army and their band of loyal workers and to any and all Citizens of Nashua who have taken an interest and cooperated with our Department to help it carry out its duties.

We also wish to commend the Officers and Members of the Fire Department for the manner in which they have performed their duties and carried on their work during the year.

Respectfully submitted,

S. ST. LAURENT

V. COTE,

E. A. WHITNEY,

Fire Commissioners.

CLEANING STREETS

We used our two power sweepers to good advantage in connection with street cleaning during the first part of the year. Our 1930 Elgin Sweeper broke down during the middle of summer and we were unable to secure necessary parts in time to use said sweeper again in 1946..

The Board would like to purchase a new Elgin Sweeper as soon as they are available, as we cannot rely on our old machine.

Snow removal costs were about the same as last year. We received a new plow unit just before the close of the year. This unit a "Sno Go" can plow snow as well as pick same and be used to load trucks. The new plow should be able to care for snow drifts easily as it picks snow and throws it off the highway. As a snow loader it works very fast, being able to go from street to street at truck speed. It will require the hiring of many trucks, however, and this will increase our cost of snow removal.

STREETS

We were unable to do very much tarring during the year as we were kept busy on sewer construction and the housing project. During 1947 we intend to make up for this and plan an extensive tarring program. Failure to do this may mean the loss of our investment in streets which would require rebuilding if allowed to go on much longer. In connection with the Housing Project we laid out and graveled and tarred Caron Avenue and Rancourt Street. These streets are a sound investment and should provide very desirable lots after conclusion of housing need.

Marquis Avenue having been subgraded by owners of adjoining lots was also graveled and tarred. New homes have been built on said street. Atherton Avenue, Bordeau and Hamilton Street and others were also improved.

Owing to needed repairs to our asphalt mix plant we were unable to operate same, being forced to purchase Hot Top asphalt. As a result we had to limit our use of Hot Top asphalt to a minimum. As soon as equipment is available this plant should be placed in operation and we need hot top asphalt on new permanent street construction and in connection with patching operations.

SEWERS

Thirty new manholes were built in connection with new sewer construction and to improve existing sewerage system.

Twenty-nine catch basins were built to provide improved drainage at various locations in the city.

One hundred and three new sewer connections were built dur-

ing the year to provide sanitary sewerage to new and old houses and business establishments.

Four thousand, eight hundred fifty-five feet of new sewerage were constructed during the year.

SEWERS WERE BUILT ON THE FOLLOWING STREETS

Berkshire Road	750.0 ft.	12 in.	Cost \$3,678.31
Eldridge Street	30.0 ft.	6 in.	Cost 127.50
Front Street	520.5 ft.	18 in.	Cost 4,215.87
Hammond Court	99.1 ft.	12 in.	Cost 909.69
Laton Street	200.0 ft.	12 in.	Cost 779.18
Marquis Avenue	154.0 ft.	12 in.	Cost 982.13
Morton Street	257.5 ft.	12 in.	Cost 2,229.79
Pershing Street	182.2 ft.	12 in.	Cost 683.84
Rodman Street	398.0 ft.	15 & 12 in.	Cost 1,952.00
Runnell's Bridge Rd.	475.5 ft.	15 in.	Cost 6,875.45
South End	597.4 ft.	30 in.	Cost 49,046.57
Stevens Street	202.0 ft.	12 in.	Cost 1,417.26

Total			\$72,897.59
-------	--	--	-------------

In addition to the above we have constructed sewers on the following streets in connection with Veteran's Housing project off Concord Road:

Caron Avenue	275.0 ft.	15 in.	Cost \$1,743.50
Rancourt Street	715.0 ft.		Cost 4,599.93

The above sewer constructions are charged to the Housing project in our financial report.

The total cost of sewer construction for 1946 including Caron and Rancourt Streets amounts to \$79,241.02.

These were built with the \$25,000.00 provided by Bond Issue and the balance out of our regular appropriation.

THE SOUTH END SEWER

The South End Sewer system was started during the administration of the Late Mayor Frank A. MacMaster as a W. P. A. project. The sewer starting at the Merrimack River followed the brook on land of the Nashua Country Club and others to the Old Lowell Road. Branch lines were built on Lowell Road north and south from this point. The main sewer crossed Lowell Road and followed undeveloped land to a point east of the Daniel Webster Highway. The W. P. A. having closed we were obliged to carry on the work with our city workers. This of course necessitated slower construction due to the small number of men available. Branch lines were also built on intersecting streets such as Clement and others. As we were laying sewer in solid ledge to within a few feet of ground, we decided to tunnel our way. A tunnel about

500 feet long was built parallel to and across the Daniel Webster Highway to a point about 100 feet west of said highway.

During 1947 we started building an open trench sewer at the end of the tunnel and built 597.4 feet of sewer to connect with sewer having already been built north of the Robinson Road. This completed the main trench line of the South End Sewer from the Merrimack River to the East Dunstable Road. We have some cleaning up to do along the sewer line and expect to have this work completed before summer 1947. There remains branch lines to be built if we wish to utilize the sewerage system to full advantage. This is the largest single sewer project ever undertaken by the Board.

RUBBISH

We have carried out our rubbish collection with our fleet of Load Packers. These are very efficient and go a long way to keeping our street clean.

Clean up week was held for two weeks during early spring. Tons and tons of refuse were disposed of. Almost our entire fleet of trucks had to be used on rubbish during these two weeks and cooperation on the part of residents in putting refuse out early would greatly reduce the cost of this service.

The care of the dumps was transferred to the Board of Health during 1947. We have cooperated with the Health Department by moving their new bulldozer from dump to dump as required.

To the Board of Health we extend our thanks for loaning us the use of their bulldozer in connection with our work.

TRAFFIC

In cooperation with the Traffic Committee we have had traffic lines painted on Main, Amherst and Concord Streets and intersecting streets by the State Highway Department. Traffic lines for crosswalks and the bus terminal were also painted by our employees.

We have laid out and built parking lots on High Street at corner of School Street and also on Water Street between Mechanic and Washington Streets.

"Street name signs" and "Traffic Signs" have also been taken care of by the department during the year. The breakage and defacing of "Street name" as well as "Traffic Signs" are responsible for a large part of the thirty-eight hundred dollars expenditures on signs. We invite the public cooperation in keeping willful or careless destruction at a minimum.

VETERANS' HOUSING PROJECT

During 1947 the City sponsored a housing project of eighty units to serve returned veterans. The Board of Public Works was called upon to lay out Caron Avenue and Rancourt Street and to pave same. Sewers to service these dwellings and to drain the area were also built. We also graded and loamed area on both sides of street and between buildings in order that housing be more attractive. The lawns were later seeded by another agency.

A store at the corner of Concord and Rancourt Streets was put up and the Board was called upon to build foundation and to grade grounds. The department was reimbursed for most of this expenditure through the Housing Bond Issue.

EQUIPMENT

On December 31, 1945 we received our Gutter Snipe Power Sweeper which we had ordered about a year before and had been promised delivery on time for summer street cleaning (1945). As delivery was made after the closing of 1945 books, this equipment was paid for out of our 1946 appropriation.

We also had on order a Power Saw for our carpenter shop. This equipment was delivered and paid for in 1946. This was to replace an old power saw which we had purchased second hand over fifteen years ago and was dangerous to use, being worn out.

We purchased a forty ton Fraehauf Trailer to be used in moving our power shovels to and from projects. We have also used this equipment to transport the Board of Health "Bull Dozer" between dumps and on other jobs. At the close of the year we have received our "Sno Go" Snow Plow and Snow Loader. Not having been billed at close of 1946 business we will have to pay for this equipment in 1947.

We have on order on January 1st, 1947 two heavy dump trucks and six snow plows to be used on these trucks and to replace obsolete plows on our old trucks.

We also have on order an Elgin Power Sweeper to replace 1930 Model now in use and an Elgin Catch Basin Cleaner on which we cannot expect delivery before 1948.

FINANCIAL

The Board of Aldermen voted us an appropriation of \$231,500.00 for 1946. We had asked for an appropriation of \$250,000.00.

The City Treasurer transferred to our department the sum of \$25,000.00 from the Bond Issue which was voted on by the aldermen and this sum in addition to our receipts was sufficient to balance our account in 1946. The balance of \$50,000.00 less financing charges will be available in 1947 to help finance sewer construction.

At the time the aldermen authorized the Veteran's Housing Project, we were promised a Bond Issue to take care of additional expenditures. With the approval of the Mayor and Aldermen we hired a number of returned Veterans to supplement on force in order to carry out the newly authorized project and additional sewers. We have retained a number of the veterans on our regular payroll as they have proven satisfactory, and we were in need of younger men to replace several of our oldest employees and to carry on the additional functions of the department. Owing to lack of materials and manpower we had to curtail our work during the war years.

Report of the Board of Examination of Plumbers

Nashua, N. H., January 13, 1947

To His Honor the Mayor, and Board of Aldermen, City of Nashua, New Hampshire:

GENTLEMEN:

The Board for the Examination of Plumbers respectfully submits its annual report for the fiscal year ending December 31, 1946.

The membership of the Board consisted of Master Plumber John P. Nash, Journeyman Plumber, Eugene L. Carrier, Chairman, both of whom are plumbers with many years of practical experience and Fred L. Clark, City Engineer, as Secretary of the Board and Plumbing Inspector.

Regular meetings were held the first Monday of the month when there was business to transact. Examinations to pass upon the fitness of applicants for plumbing licenses were held when required.

There were 30 Master Plumbers' licenses and 48 Journeymen Plumbers' licenses issued during the year.

The total number of inspections for the year was 406 in 241 buildings, an increase of 314 inspections over the previous year.

Due to the very acute shortage of plumbing supplies the rigid enforcement of the ordinance continued to present a difficult problem. It is hoped that this year will bring an end to such shortages, so that all future installations can be made to conform with the letter as well as the purpose of the code, for the health and convenience of all.

Report of Park-Recreation Commission

To the Park-Recreation Commission:

GENTLEMEN:

The year 1946 was marked by several innovations. For the first time in many years Nashua had a professional baseball club entered in the New England League. The Nashua Dodgers, a farm team sponsored by the Brooklyn Dodgers, made their headquarters at the Holman Stadium and completed a very successful season. At their expense they relocated and added to the lighting system so that night games could be played, and nearly all the home games except those on Sundays and holidays were played under the lights. The Park-Recreation Commission cooperated with the Dodgers in every way possible improving the field and diamond by top dressing, fertilizing and seeding the grounds. New lights were installed over all the entrances, correcting a condition which had previously been very unsatisfactory. Although the rent paid by the Dodgers did not nearly reimburse us for the money expended, we had the satisfaction of knowing that we had made it possible for the people of Nashua to enjoy good baseball.

Another highly successful venture was the organization of a Junior Baseball League of eight teams, each representing one ward, excepting wards four and five united to form one team. The Park-Recreation Commission provided uniforms and equipment and umpires. A public spirited person in each ward gave his services to act as manager and coach for his respective team. Two games a week were played by each team with prizes being awarded at the end of the season to the winning team and to various individuals for outstanding ability. Much interest was shown by the older people as well as by the boys, and many of the boys developed exceptional baseball ability. Recreation Director William Sweeney took complete charge of organizing the league, working out the schedule and all other details, and deserves great credit for the excellent job he did. With the proceeds of collections taken at the games a banquet was given the boys and others who helped to make the venture a success.

Four skating rinks were operated, at Holman Stadium, Sandy Pond, Atherton Avenue and Marshall Street; five playgrounds were conducted, at North Common, South Common, Textile Field, Marshall Street and Atherton Avenue.

Major improvements were made to the ball field at Textile Field and minor improvements were made at South Common, Atherton Avenue, North Common and the softball fields in the rear of the stadium. An entirely new baseball field was graded

and laid out in the northerly portion of the Marshall Street playground. Also a chain link fence was erected along the north boundary of this park.

A new backstop fence was erected around the tennis courts on Bowers Street, replacing one which had been a disgrace to the City for several years but could not be replaced because of lack of materials due to war conditions.

Very little new machinery was available, but we did succeed in purchasing a Model A International tractor with a sickle bar attachment and a Hough sweeper to be used in cleaning the ice on our skating rinks.

We are very much in need of at least one new truck, one new power lawn mower and a small power lawn roller.

The Stadium was painted throughout, inside and outside, even all the steel work beneath the stands, and also both the permanent and portable bleachers.

A fire, which may have started from defective wiring, did considerable damage to our frame storage building and its contents, last March. But for its timely discovery the building and contents would have been entirely destroyed. The loss, amounting to \$2,600.00, was covered by insurance, but we suffered considerable inconvenience because of it.

We are very much handicapped by lack of storage space and should either enlarge our storage building or the garage.

Our pool at Field's Grove was condemned by the State Board of Health as unsuitable for bathing purposes, so other facilities should be provided for 1947.

Our employees devoted nearly their entire time to maintenance of our various grounds and other routine duties so that very little new development could be undertaken.

Owing to help shortage, care of our nursery, painting of buildings at Greeley Park, pruning trees and many other items were badly neglected or omitted altogether.

We hope that in 1947 funds will be available to accomplish at least some of these objectives.

Report of the City Solicitor

June 18, 1947.

To His Honor the Mayor, and Board of Aldermen:

GENTLEMEN:

During the year of 1946, I performed to the best of my ability all the duties requisite to my office as City Solicitor. I was called on for advice by various members of the City Government and heads of departments. I was called upon for written opinions, drafting resolutions, ordinances, contracts, deeds covering tax-acquired property, and other legal instruments.

Considerable time was spent on the Veterans' Housing project and the dikes project, so-called. Both having been federal projects under federal supervision, required considerable time.

Criminal cases were prosecuted by me in the Municipal Court. I also appeared for the City in several civil actions in the Superior Court.

Respectfully submitted,

LEONARD G. VELISHKA,
City Solicitor.
